

Logistics, Customs & Export Support

Overview

We coordinate with forwarders, prepare export docs, and manage Incoterms so your goods move smoothly from Turkish factories to your warehouse.

What's Included

- Freight booking
- Customs docs
- Tariff support
- EU delivery

🕒 1-3 weeks

Success Story

A distributor needed urgent delivery of apparel to Milan for a fashion week event.

Result

AC-TR arranged expedited air freight with full customs clearance in under 10 days, enabling the brand to showcase on time.

Why It Matters

Delays at customs or mismanaged Incoterms can disrupt supply chains and incur unexpected costs. Proactive logistics support keeps goods moving smoothly.

How We Deliver

Streamline freight, export documentation, and Incoterms for smooth global deliveries.

Details

INTRODUCTION

Getting production right is only half the journey — your goods still need to move across borders, through customs, and into your warehouse without disruption. At AC-TR, we manage the complex logistics steps between Turkish factories and your destination, so you avoid costly delays and hidden charges.

WHY IT MATTERS

Even the best production run can be undone by poor logistics planning. Misaligned Incoterms, incomplete export documents, or overlooked customs procedures can cause stalled shipments, unexpected duties, or missed deadlines. Proactive logistics support ensures your supply chain flows seamlessly from factory floor to final delivery.

OUR APPROACH

We coordinate the full export process with clarity and accountability:

- **Freight Coordination** – Work with trusted forwarders to book sea, air, or road transport at competitive rates.
- **Export Documentation** – Prepare compliant invoices, packing lists, certificates of origin, and other required paperwork.
- **Customs Clearance** – Navigate Turkish and destination-country customs with accuracy to prevent costly holds.
- **Delivery Tracking** – Monitor movement from dispatch to arrival, with updates at every stage.

WHAT SETS US APART

- **On-the-ground presence** – Direct coordination with factories and forwarders in Turkey.
- **Full Incoterms expertise** – From EXW to DDP, we ensure terms are applied correctly and protect your position.
- **Proactive problem-solving** – We anticipate bottlenecks, resolve issues quickly, and keep your delivery on schedule.
- **Flexible delivery modes** – Whether urgent air freight or cost-efficient sea freight, we adapt to your priorities.

EXPECTED OUTCOMES

With AC-TR managing logistics, you can expect:

- Smooth customs clearance and reduced risk of shipment delays
- Predictable costs with no hidden surprises
- Timely delivery that aligns with launch schedules and customer commitments
- End-to-end visibility over your shipments

TIMELINE

Most logistics setups are coordinated within 1–3 weeks, depending on destination, mode of transport, and customs complexity.

WHAT'S INCLUDED

- Freight coordination

- Export documentation
- Customs clearance
- Delivery tracking

WHY PARTNER WITH AC-TR

Shipping across borders doesn't have to be stressful. With AC-TR as your logistics partner, you gain clarity, reliability, and confidence that your products will move smoothly from Turkey to wherever your market is.
